OLIVIA BURTON

Fall/Winter 2022

Olivia Burton is a British accessories brand founded in 2012.

At the heart of Olivia Burton is a celebration of originality and a dedication to creating watches and jewellery styles as individual as its customers.

Drawing from vintage styles, fashion trends and all things nature, the brand creates unique and elegant pieces that you won't find anywhere else.

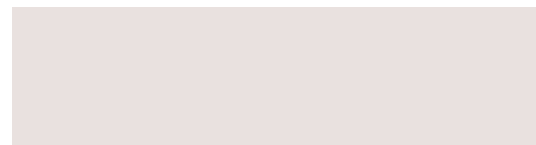

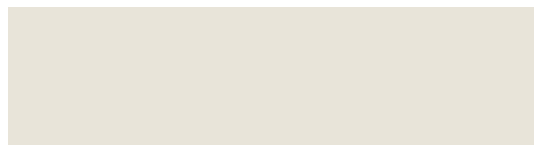

ORNAMENT BLOOMS

Fall/Winter 2022

Nature has long been a source of inspiration in architecture, spanning from Gothic and Renaissance styles to the Romanesque and British.

Our Ornament Blooms collection draws directly from flowers integrated into architectural structures - such as ornamental flower wreaths, marble floral garlands and garden landscapes.

Elegant and subtly detailed, each Ornament Blooms piece is delicately decorated with beautiful floral adornments.

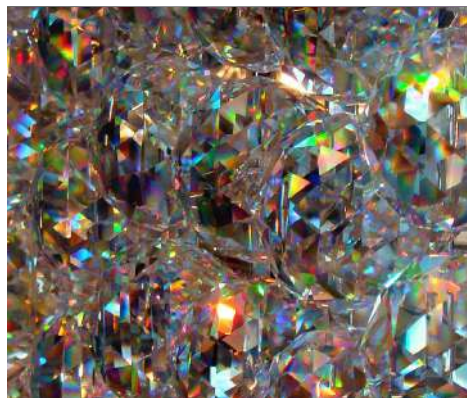

AURORA

Fall/Winter 2022

Inspired by dancing waves of light and kaleidoscopes of colour, the Aurora collection mimics the natural wonder of the Northern Lights.

Each Aurora piece features crystal detailing in an ethereal blend of colours - designed to gently dance against the light as you move.

Your very own light show, contained at your wrist.

CELESTIAL

Fall/Winter 2022

A celebration of all that glitters in the night sky, Celestial combines starry motifs with crystal embellishments and midnight-hue dials.

From North Star embellishments to lunar-inspired detailing, every Celestial piece serves as a personal reminder to never stop looking up.
